July 2018 Aoyama High School Bulletin #132

Ladies and gentlemen, the end of the rainy season has come earliest since weather observation started in the Meiji era. It has been extraordinarily hot since the end of June. We have started to have classrooms air-conditioned since then. I hope it will be even just a bit cooler in the first week of September so that we will be able to have the Cultural Day, *Gaien-sai* without it being too hot. I look forward to enjoying as many wonderful plays or musicals as possible during *Gaien-sai*. **Principal**

Our students received three Cultural Lectures!

On the 9th, the governor of Tokyo, Ms Koike Yuriko, visited our school and expressed her hopes for contemporary high school students. It was a great honor to welcome the governor to our school.

On the 11th, we invited Mr. Yokota, a graduate of our school. He gave a lecture to the eleventh graders. He said, "If you are not good at mathematics, you don't have to worry about it. The more you learn, the more you like it."

On the 19th, we invited Mr. Deguchi, President of Asia Pacific University. He gave a lecture to the tenth graders. He said, "It's okay if you have not yet found out what you are good at. Improve your intellectual strength and do what you want to do."

It is important for you, soon-to-be adults, that the Civil Code is to be amended in a few years and teenagers over 17 years old will be legally adults. You need to gain knowledge by learning and instruction since you can't improve yourselves without it. I believe it is very helpful for you to listen to such notable persons directly. You have to come into touch with genuine things, not through virtual experiences but through actual ones.

We appeared in the *Nikkei-Shimbun* on June 25th !

They wrote it is amazing that we started to revise our entrance examination last year so that we could prove that our school has

been ready for the new national examination for universities which is scheduled to be reformed in January, 2021.

According to our revisions, students should be able to: Mathematics: make a strategy before proving two triangles out of six are similar.

Japanese: read an article and three different opinions about it, then write an essay showing the basis of their own argument.

English: select all correct answers without being told how many are right ones after reading a story.

Aoyama High School Bulletin

青山高校通信 132 号

平成 30 年 7 月

明治時代に気象観測が始まって以来、最も早く梅雨が明けました。6月の末から例年にない暑さが続い ています。それ以来、教室の冷房を始めています。9月第1週は今よりも少しでも涼しくなってほしいと思い ます。外苑祭を暑すぎない環境の中で開催できるようにと祈るばかりです。外苑祭の期間中、できる限り 多くの劇やミュージカルを楽しみたいと思います。

6月25日付日経新聞に記事が載りました!

「青山高校が、2021年1月から変更される予定の新しい大学入試

に対応した教育をすでに展開していることを証明するために、 高校入試問題の改革に去年から取り組んでいたことは驚くべ きことだ。」	1 22.
青山高校の入試改革では、次のような力を求めることにしまし た。	
数学: 6つの三角形から2つを選ばせることで、証明する前 に解法の方針を立てさせる	
国語:本文とそれについての三つの異なる意見を読み、根拠 を示しながら自分の考えを書かかせる	6
英語:本文を読んだあと、正答の数を示さずに、正しい答え を全て選ばせる	F
