

School Policies

1. We encourage students to pursue higher education.

We have advanced-level classes from the second year. Any student can study for entrance examinations with friends who have the same ambition. You can improve your academic skills at Fussa High School.

2. We give students many opportunities to communicate with students from other countries.

Our sister school, Yokota High School, is located at Yokota Air Base in Fussa City. Students have opportunities to visit Yokota High School and study together. Students also have opportunities to communicate online with students from other countries such as Korea, the USA, and Jordan. Lycée Voltaire, a French high school, became our new sister school in 2025.

Study abroad in Indonesia in 2026

3. We have twenty-five types of club activities.

We have fifteen sports clubs and ten cultural clubs. About 70% of the students belong to these clubs and enjoy their school life. Our clubs have won awards. For example, a student in the track and field club ranked second in the Ome Marathon. Art club students make a giant paste-up picture every year.

Giant Paste-up Pictures

Yokota High School – Sister School in the U.S

Our students enjoyed learning with students from Yokota High School. They made paste-up pictures of their school emblems. We held an exhibition basketball game between the Fussa team and the Yokota High School team. Our students joined a cooking contest held at Yokota High School in 2026.

Cooking Contest

Lycée Voltaire – Sister School in France

We started a study abroad program at Lycée Voltaire in Paris, France from 2026. Two students went to the school and experienced school life in France. On the weekend, they went sightseeing and visited many famous places such as the Eiffel Tower, the Palace of Versailles, Louvre Museum and Notre-Dame Cathedral.

School Events -School Trip to Korea in 2026

We have school events, such as sports festivals, a cultural festival, and a choir festival. The students put their best effort into each event. In particular, they practiced singing and performed very well at the choir festival in June. The second-year students also have a school trip. In 2026, they will visit Korea and meet high school students there. They will discuss several topics about common social issues.
