

Hello. Today I would like to introduce the event that I joined. There are a lot of differences in Japanese life and American one. I feel glad if you will be interested in my U.S. life.

Homecoming

Homecoming is a school-spirit tradition in many American high schools that combine sports, school spirit, and social activities into a week-long celebration, culminating in a football game and dance. In my school, a DJ came to school, and I had fun.

Niagara Falls

Niagara Falls is the one of the “three major waterfalls of the world”. In addition, this fall is a water fall with the largest amount of water in the world. I went there with my host family. It took seven hours to go there. However, the fall was wonderful. I would like to go there again.

Culture Night

In my school, there was an event where students can get to know other countries' cultures. I made onigiri and origami, and I wrote a name in calligraphy. I was happy because everyone liked my calligraphy.

Halloween

In America, a lot of people wear costume in Halloween, even adults. In my school, my teacher wore costume of “Inside head 2”, and that picture is on the Instagram. In the evening, I did “trick or treat” with my friends. It was a very valuable experience.
