

Hello! Today, I would like to share life in the U.S. There are many differences between life in Japan and life in America, and I would be glad if you are interested in hearing about my experiences here.

State

We qualified as a team, so I went to the state tournament. Although I didn't win, it was a great experience for me. I love the atmosphere when I make a spare or a strike; everyone cheers for each other and enjoys the game. This day marked the end of the season, and I felt a bit sad. I would love to go bowling with my teammates again sometime. I really enjoy bowling and appreciate my teammates.

Birthday Party

I had my birthday this month, and my host parents threw a party for me. I had a piece of chocolate cake that was so sweet and big! In the end, we couldn't finish it, so we had to throw it away. My host mother asked what kind of present I wanted, but I didn't need anything material. Instead, I decided to go bowling with them as my gift. I haven't played bowling with them yet, so I'm really excited about it!

A bracelet

I made a bracelet in my jewelry class, where I got to design, cut the metal, polish it, and add color. I did everything myself! The most challenging part was the cutting. I chose a complex design, so I had to be really careful while cutting. It was an interesting project, but it also made me quite tired. Overall, I enjoyed the experience!
