

In March, we had a lot of snowy days! The weather was bad on those days, so I always stayed at home and spent time on my hobbies or did some homework. However, there were a lot of exciting things that happened this month!

1 . Sushi restaurant

I went to a sushi restaurant with my friend. It's the only Japanese restaurant in my city, so I go there whenever I miss Japanese food. Usually once every two months.

We ordered sushi, tempura, and dumplings. It wasn't exactly the same as the sushi I ate in Japan, but it was still good. The cucumber roll at this restaurant is very different from the one in Japan, so I was really surprised when I saw it.

2 . Swimming

I went swimming with my host sister! It was our first time going swimming together, so I was really excited. Unfortunately, we couldn't use the large pool, so we spent our time in the hot tub instead. In the hot tub, my host sister showed me how to do a flip in the water and taught me how to do it. I hope we can use the large pool next time.
