

Hi everyone. I have big news this time. Happy Spring, Sudbury! I'm so excited it is finally here. One day the temperature went up to 21 degrees, and it was hot. These days, it's around 0 to 10 degrees. It's still much cooler than Tokyo but I love this climate so much. I hope it will get warmer by the middle of June, and wanna go to beach and pool! Today I want to talk about Easter, fall in spring and Play Club's show.

<Easter>

On Easter weekend, I stayed at temporary host that their mother is my host mother's cousin. There were two international students from Switzerland and Spain. We went to Easter Eggs Hunting at church. But it was mainly for young children, so we were a little bit embarrassed. However, our temporary host mother also organized a private egg hunt for us at her house, which was so much fun! I was so surprised by the amount of chocolate we got; it was almost as much as Halloween lol.

<Onaping Falls>

I also visited Onaping Falls, which is a huge and famous waterfall located just outside of Sudbury; only about 30 minutes away from my home. Spring is the best time to visit because the massive amount of snow accumulated during the winter starts to melt, making the water volume the highest of the year. The water was rushing incredibly fast with tremendous power. It was an absolutely breathtaking and stunning view!

<Play Club>

In Play Club, we performed a play called *Into the Woods*. To be honest, I didn't really like the storyline itself, but I had an amazing time working together with everyone to create one big performance. After our final show, we had a small after-party. During the party, the Grade 12 students started sharing their memories from the past years. Their speeches were so moving that I couldn't help but cry. I felt deeply grateful and truly happy that I could perform in this play with such wonderful friends this year. It became an unforgettable memory for me.
