

Hello. It has passed four months since I came here. I want to report what happen this month.

In Adelaide, students were in holiday during 11 April to 26 April, about two weeks. I went to two English schools. This is because, I want to improve English skills, also I want to communicate a lot of foreigners and make a community. First week, I went to SACE. This school is in city. I learned reading, writing, listening, and speaking. I use English a lot and learn many things. Moreover, I could make a friend. Second week, I went to ILSC. This school is also in city. I learned English skills, also I learned coffee skills

It was so exciting. I drunk hot chocolate, because I can not drink coffee. I was surprised that coffee has a lot of types of how to make. I did not know that different of Capuchino and Moca. Unfortunately, there are not any students who is under 18, so I need to communicate with adults, so I tried communicating with them. As a result, I could change a Instagram with them. There are a few Japanese, but I spoke to them in English, because it is better than use Japanese to improve my English skills.

During the holiday, I moved to another homestay. This is because, my host family went traveling Vietnam. New home stay was so good. They are so

kind. They made a delicious food kind of Italian. I liked it. During the home staying, I played Xbox. It was interesting, also I hung out with the dog host family has. The dog was very cute.

Last day, I went to my friend house. I played basketball and I played Minecraft. His house is on the hill, so little bit cold.

After finishing Holiday, the school was restarted. I felt nervous, but when I met my friends, I spoke to my friends frankly.

That concludes this month's report. See you next month.
