**Q1 How to confirm the exemption of income levy tax?**

- A1 You can refer to notice letters on special collection tax amount issued by the organization you belong, or notice letters on resident tax payment sent from the local administration office of your living region. If such documents are not available at your hands, you can request the local administration office of your living region to issue a certificate of imposition or exemption of resident tax in FY2020 to confirm it.

**Q2 I have no residence registered in Japan since I have been assigned abroad. My child is granted financial aid from High School Tuition Support Fund. Is my child also eligible for Grants for Supplemental Scholarship?**

- A2 As for Grants for Supplement Scholarship, all the guardians of the student are required to register their residence in Japan. If any of the guardians has no residence registered in Japan due to overseas assignment, the student is not eligible for it. However, in case that one of the guardians has residence registered in Tokyo and it is confirmed that resident taxes in FY2020 are exempted for all members of the guardians, such students are eligible for the Grants.

**Q3 Is it acceptable to make application for the Grants in case that the final return filing is not yet performed?**

In such case, the relevant resident tax certificate is not available for the application or confirmation of taxation amount by means of Individual Numbers is not possible, so you are requested to follow such necessary procedures as final return filing promptly.
