

発表テーマ	Science Study Tour～オーストラリア理数系授業参加プログラム紹介
発表者（学年）	4 年押見・塚本・岩崎
発表団体	SST（Science Study Tour）参加生徒
研究概要	
<p>We 10 students of Koishikawa Year10 went on the Science Study Tour for 2 weeks this summer from 2nd to 15th August at Glenunga International High School in Adelaide, Australia. We attended mainly science classes of The International Baccalaureate Diploma Programme (IBDP). This year, each of us had four buddies, and attended lessons, such as Math, Physics, Chemistry, Biology and English, together with them. Also we went on some excursion visiting University of South Australia to conduct some experiments. On the weekend, we visited science show, called Science Alive. These experiences became great memories for all of us, and we gained a sense of fulfillment from them. We'd like to introduce this tour in English.</p> <p>私たち 4 年生 10 人は 8 月 2～15 日、夏休みの 2 週間、オーストラリアのアデレードにある、Glenunga International High School で、IBDP の理数系の授業を中心に参加してきました。今回はその概要と成果をお話しします。</p>
