

English letter from JET No.1

Hello, everyone!

My name is Jeanette Montero. I am from the Philippines, and I am your new Assistant Language Teacher from the JET Programme.

I have been teaching English for 5 years now and I am excited to continue my educator journey here at Naruse High School. I grew up in a family of teachers and I believe that language learning should be interactive and enjoyable. I cannot wait to have fun with my Japanese students as we venture into the wonders of the global language.

This is my first time here in Japan and I am amazed at how beautiful this country is. I am looking forward to seeing more spectacular sights, experiencing vibrant culture, trying out delectable cuisines, and most importantly, meeting people and learning about Japanese values. Knowing more about their culture and introducing them to mine is something I am excited about the most.

I am eagerly anticipating the school's cultural festival! I hope to see the students' creativity and passion in what they do, and also partake in a culturally-relevant event. I am looking forward to getting to know the school more through this experience.

Let's bridge the gap as we exchange cultures from the Land of the Rising Sun and the Pearl of the Orient Seas. See you all soon.
