## 感想

- It was a very excellent meeting! I was very surprised at students' presentation that was not only well-organized but also interesting. It was an exciting event. I want to visit Germany someday.
- It was nice to have a lot of conversations with the German students. We learned about each other. It was so interesting that the Germans know about Japan well.
- It was a little difficult to understand all the contents. However, I enjoyed this event. Telling and knowing about each other's cultures was very interesting for me. I'd like to visit Germany sometime...
- It was a wonderful time. We were able to get to know each other. What impressed me most is that they have a similar culture to ours like “菓子折り”.
- I thought that modern things (what's popular among them, their life, etc.) are more interesting for us than traditional things. I want to present more about modern things if I have another chance.
- I enjoyed the German exchange very much! I also learned some vocabularies by making a presentation. I want to join next time if it is held again.
- I was glad to join such a wonderful exchange experience. I learned many things about Germany and I introduced many things about Japan. It was my first time communicating with Germans so it was a lot of fun! Thank you for holding this!
- It was so fantastic! Last year, I just watched the presentations but this year I made a Power Point file and made a presentation. Next time, I want to communicate with students in Germany and other countries, too! Thanks!
- 去年も参加したが、今回はドイツについての説明が多く、ドイツについて知ることができた。実際に現地の人の声を聞き、ドイツに行きたくなった。
- ドイツのことについて学べただけでなく、プレゼンテーションを用意する過程で日本のことにも詳しくなれて興味深かった。また、日本のゲームやマンガがドイツでも有名だと分かり、何となく嬉しかった。
